ERRATUM

AJNR Am J Neuroradiol published online 15 November 2018

<http://www.ajnr.org/content/early/2018/11/22/ajnr.A5907>

This information is current as
of August 21, 2025.

The authors regret that in the article “White Matter Changes Related to Subconcussive Impact Frequency during a Single Season of High School Football” (*AJNR Am J Neuroradiol* 2018;39:245–51; <https://doi.org/10.3174/ajnr.A5489>), the art and legend for Fig 3 did not match. A corrected figure with the original legend is reproduced below.

FIG 3. Scatterplot of changes in FXST FA for all subjects across the season. Individual player data are connected by *solid* or *dotted* lines based on the median split of the total number of impacts during the season, as depicted in the legend. The concussed subject is plotted with *triangles*.
